

How to survive family gatherings and birthday parties as a Techie

What are you supposed to
talk about, if not about
open source, rubies and ~~the~~
~~shittyness of~~ JavaScript?

THE INTERNET VS. THE WEB

The Internet vs. the web

Did you know that the Internet is not the same thing as the World Wide Web? Although these terms are often used interchangeably, they are actually different things.

Hello, my name is Floor and
[I'm dating a developer]

I like real time. It's so fast.

I would like to see the kids of this shit.

(the children of an element)

I'm not a VCS.

(his answer to 'you silly git')

I consider my laptop both secure
and compromised.
It's like Schrödingers Katze.

I'm a binary shopper.
It's either a 'yes' or I hate it.

There's always something to google
on the internet.

I get my strong arms from typing
on a Linux keyboard.

So I added you to this git repository to manage things around the house, with grocery lists and stuff. It's easier than using Google Docs.

Cut the cr.. lingo

Websites vs. web applications

We're bootstrapping

I'm vc-ing the shit out
of this application

Back-end

Open Source

Cyber security

What's up with job titles
nowadays?

senior

rockstar

ninja

guru

wizard

... and that's coming from a
'developer evangelist'

I can't reproduce this,
therefor there is no bug.

Who's gonna tell the devs?

What ... thinks I do

what my mom thinks I do

what my friends think I do

what I think I do

How to survive...

Presents.

Ermagherd!
Another programmer!

Turn off your devices.

TDI

Thank you.
