How to survive family gatherings and birthday parties as a Techie

What are you supposed to talk about, if not about open source, rubies and ~~the shittyness of~~ JavaScript?

Hello, my name is Floor and
[I'm dating a developer]

I like real time. It's so fast.

"

I would like to see the kids of this shit.

(the children of an element)

I'm not a VCS.

(his answer to 'you silly git')

"

I consider my laptop both secure
and compromised.
It's like Schrödingers Katze.

"

I'm a binary shopper.
It's either a 'yes' or I hate it.

"

There's always something to google
on the internet.

"

I get my strong arms from typing
on a Linux keyboard.

"

So I added you to this git repository to manage things around the house, with grocery lists and stuff. It's easier than using Google Docs.
